MUSICANOTE · Music Search

A New Way to Search Music: By Melody

Library music collections could only be searched by text — titles and composers. Now you can enter the melody you remember, find similar music, and follow the results into the library's holdings.

INPUT

8 notes entered on the on-screen keyboard

RESULTS

Exact Match

Beethoven · Piano Sonata No. 8 "Pathétique", II

100 Match Score

1–3 bars · All 5 places the theme appears: bars 1, 9, 29, 51, 59

Interval 100 Rhythm 97 Downbeat 31 Structure 82

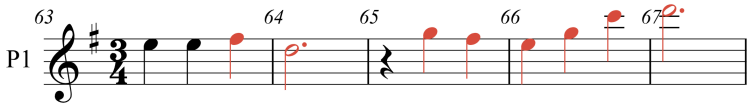

Similar

Satie · Je te veux

92 Match Score

63–67 bars · A similar melody in another work

Interval 93 Rhythm 59 Downbeat 25 Structure 43

● Red notes match the input · Real results from musicanote.com (2026-10-25, melody only)

How It Works

1

Enter a Melody

Play notes and rhythm on the on-screen keyboard, or paste them from another score.

2

Find Similar Music

Pieces with similar intervals, rhythm and contour, with matching notes in red.

3

Link to the Library

Follow a result into the library database's holdings and research material.

What Makes It Different

300,000+
Music Data Entries
Searchable music data entries, not unique compositions.

Any Key
Any Tempo
High or low, fast or slow — the same melody is found.

Evidence
Shown
Scores and notation show which bars match and how closely.

4 Ways
To Compare
Melody only, melody + rhythm, rhythm only, or a drawn contour.
